### Workplan 2019-2020

- To continue the activities on **improving data quality** through different approaches.
- **Assistance to FAO to develop the prototype for Honeybees data implementation in DAD-IS/EFABIS.**  
The Documentation and Information working group developed a specific Ad-Hoc action on the topic "Indicators for monitoring status and trend of honeybees and pollination ecosystem service", providing recommendations for development and implementations of data fields on honeybees in DAD-IS. In the next year the WG will assist to FAO to develop and test the prototype, with the collaboration of different Countries.

### Workplan 2019-2020

- **Transboundary breeds:** joint activities with the other WG of ERFP to improve data quality, harmonization and completeness. A specific ad hoc action has been proposed during the meeting in Madrid, and the WG will contribute with a direct involvement.
- **GENRESBRIDGE Horizon Proposal:** the WG will collaborate with the active participation in two ways: 1) to favour synergies with other domains, and 2) through the activities aiming at improving data quality within ERFP. A specific ad hoc action has been proposed during the meeting in Madrid, and the WG will contribute with a direct involvement.
- Contribute to **ERFP communication strategy**  
Small group is available to work in collaboration with the Secretariat.

Ad hoc action: Technical workshop on Mediterranean AnGR  
C. Ligda and E. Sturaro

**Aim:** to reinforce cooperation within region and strengthen existing capacities for the conservation and management of AnGR

**Organizers:**

- ERFP WG Docu and Info
- NC of Tunisia Prof Mnaouer Djemali
- EAAP Mediterranean WG
- support of FAO

- Ad hoc action financed (5600 euro) from ERFP last year

European Regional Focal Point for Animal Genetic Resources[www.animalgeneticresources.net](http://www.animalgeneticresources.net)

Ad hoc action: Technical workshop on Mediterranean AnGR  
C. Ligda and E. Sturaro

**Participants** (expected):  
5-6 members of ERFP WG Docu and info, one external expert, one person from FAO, NCs from North Africa

**Program:**

- Preparatory phase: questionnaire to NCs from the one prepared from ERFP WG Docu and Info on needs assessment -2015
- 1 and ½ day Workshop: Hammamet, Tunisia - 19-20 November 2019
  - To study the level of existing data on livestock breeds
  - definition of the gaps and reasons for these
  - suggestion of ways to overcome the gaps
  - To define a method to continue the collaboration
