

# ERFP WG In situ conservation and valorisation of AnGR

Sebastian Winkel  
Report to the ERFP Assembly 2019

[bmel.de](http://bmel.de)

## Content

1. Report
2. Changes to the work plan

## Report

### **Task “Position paper on the CAP”**

*(Lead: Beate Berger, AT/Sebastian Winkel, DE)*

- Sent to European Parliament, European Council and European Commission
- **Task completed**

## Report

### **Task “Best practices for in situ conservation and valorisation of AnGR”**

*(Lead: Coralie Danchin-Burge, FR)*

- Collation of projects
- Next steps:
  - Promotion of identified projects via the ERFP website
  - Further projects can be added at any time.

## Report

### **Task “ERFP Guidelines for in situ conservation of transboundary breeds”**

*(Lead: Jack Windig/Sipke Hiemstra, NL)*

- Inventory of points to be covered by the guidelines
- Next step:
  - Joint efforts with the other two WGs in the Ad hoc action on transboundary breeds

## Report

### **Task “Promote and support rural development measures”**

*(Lead: Srdjan Stojanovic, RS)*

- Questionnaire on support measures for individual breeds
- Next steps:
  - Sending of the questionnaire to the NCs
  - Evaluation of the questionnaires, development of recommendations

## Report

### **Task “Exchange of recommendations of national advisory bodies on AnGR”**

*(Lead: Sebastian Winkel, DE)*

- Identification of 7 documents
- Next steps:
  - Distribution via the ERFP website
  - Further documents can be added at any time.

## Report

### **Task “Support of the project GenRes Bridge”**

*(Lead: Danijela Bojkovski, SL)*

- Joint WG meeting in May 2019, GenRes Bridge Workshop in July 2019
- Next step:
  - Further consideration of the results in GenRes Bridge

## Report

### **Task “Experience exchange on in situ-conservation and valorisation of AnGR”**

- Presentations from Greece and Iceland during the WG meeting in May 2019
- To be continued.

## Changes to the work plan

### **Task “Best practices for in situ conservation and valorisation of AnGR”**

Huge effort and lack of capacity

- Development of a grid to collect best practices for in situ conservation is not feasible.

### **Task “ERFP Guidelines for in situ conservation of transboundary breeds”**

Joint efforts of all 3 WGs in an Ad hoc action

- Outcome: ERFP Guidelines for transboundary breeds

**To be approved by the ERFP Assembly**
