ERFP LIST OF EXPERTS

GENERAL ASSEMBLY ERFP
GHENT August 2019
Montse Castellanos Moncho, SPAIN

ERFP LIST OF EXPERTS

1. **Approved in 2018 GA**

2. **Included in MYPOW 2019-23: Support for policies**

   A list of experts will be created based on nominations by NC to assist the ERFP network by dealing with certain specific policy/legislation issues as well as technical support

3. TOR: Strategy and objetives-policy framework (international/EU)

4. Continuation of collaboration EU TF works

Why a list of experts?

ERFP

Besides the previous reasons…

- It´s a way to find specialiced people in different subjects to facilitate the knowledge, follow up and a possible ERFP position
- It will contribute to improve the networking and the implementation of MYPOW and the connection with other entities and joint people
- It doesn´t involve high risks (if ERFP defines well the procedure to channel the reports, flow of information and publicity of the Works)
- It works well for other subjects: there are similar lists in other fields
- It´s cheap
- It can be an extra tool for the ERFP effectiveness
- But….It´s also and an extra job for the experts to be appreciated….!! And they can find some limitations

ERFP LIST OF EXPERTS DOCUMENT

ERFP

Introduction: some background-strategy paper from EU TF for monitoring activities from different policies and networks to identify actions and position papers. It needs specialized manpower.

Experts profile and flow of information: Involvement of NC/SC/Secretariat

List of policies
Possible actions and structure:
- Common introductory part
- Analysis of the different legal acts: Name of the legal Act, general scope, specific elements of relevance for AnGR, SWOT, outlooks, links to legislation
- Examples of best practices
- General conclusions and recommendations

ERFP LIST OF EXPERTS: COMMENTS

-Comments from FR: expert analysis do not represent a country`s or ERFP position, profile of experts, lack of conflicts of interests, endorsed by NC and GA.

-Comments from GER: Assignment the work and policy to WGs, the channel of information and some control of the experts, avoid other networks or ways for communication, reduction of the list of policies.

-Any other comment?

- Others

ERFP LIST OF EXPERTS: COMMENTS AND DISCUSSION

-Role of experts, profile and flow of information: Request from WG/Secretariat/SC with some coordination?.

-Works after request&voluntary reports and some room of maneouvre and own initiative?

 -One expert/policy/country but several experts in list from several countries :
Own internal network and coordination to deal with the subject and to get the final outcome. (1 chair?)?
Possibility to get other contributions from highly qualified people and other institutions?

-Any priorities in the policies or actions? Identification of topics

-Connection with projects and complement actions? (i.e genres bridge)

SCHEME AND FLOW OF INFORMATION
