

# Report of EAAP Working Group Animal Genetic Resources

2009/2010

ERFP Annual Workshop Crete 2010

S.J. Hiemstra

# **In summary – TOR of EAAP-WG-AnGR**

- Promote GPA priority areas, and in particular research, education and training
- Cooperate with EAAP Study Commissions and Working Groups
- Cooperate and liaise with ERFP, FAO, EU, CBD, NGO's and other international bodies
- Cooperate in the management and development of EFABIS
- Advice EAAP and EAAP Council on the needs for specific developments and coordination in disciplinary areas related to AnGR management and conservation

# Members of the EAAP-AnGR-WG

## *President:*

- Sipke Joost Hiemstra

## *Vice-presidents:*

- Eildert Groeneveld and Elzbieta Martyniuk

## *Secretary:*

- Nina Saether

## *Members:*

- Gustavo Gandini, Coralie Danchin-Burge, Christina Ligda, Miguel Toro, ..

## *Organizations represented:*

- ERFP, FAO

# Activities/involvement

## EAAP-WG-AnGR 2009/2010

- EAAP 2009 session 13 – Practical strategies and tools for the genetic management of farm animal population
- EAAP 2010 session 14 – Adding value to local breeds
- Workshop FAO – Indicators for genetic diversity in livestock
- RBI/RBST Seminar London – Breeds at risk – criteria and classification
- EFABISnet project and development of options for future management of EFABIS

**EAAP**

European Federation of Animal Science

## **EAAP-2010 Crete**

### **Session 14. Strategies to add value to local breeds**

23 August 2010 - 14:00 - 18:00 hours

Chairperson: Ligda, Hoffmann/Scherf and Hiemstra

**RFP**  
**EUROPE**

## Theatre Session 14

- How to distinguish products made from a specific animal breed: stakes and ways of collective action in the European Union  
Boutonnet, J.P.
- Local breeds as tool for a balanced regional development in the world of 'globalization': the case of Crete Island  
Belibasaki, S. and Stefanakis, A.
- Interactions between management of local breeds and valorization of products, examples of French cattle breeds  
Lauvie, A. and Lambert-Derkimba, A.
- Marketing products based on breed in the Nordic region  
Lund, B.
- Added values of dairy cattle breeds  
Cassandro, M.
- Strategies to add value to local breeds with particular reference to sheep and goats  
Papachristoforou, C., Koumas, A. and Hadjipavlou, G.
- Are PDO projects adding value to local breeds: comparing two case studies, Nustrale and Cinta Senese pig breeds  
Casabianca, F., Maestrini, O., Franci, O. and Pugliese, C.
- Beef quality differentiation in the framework of Serrana de Teruel endangered breed conservation programme  
Sanz, A., Alberti, P., Blasco, I., Ripoll, G., Alvarez-Rodriguez, J., Bernues, A., Olaizola, A., Zaragoza, P., Rodellar, C., Sanz, A., Martin-Burriel, I., Picot, A., Congost, S., Abril, F. and Vijil, E.
- Valuation of autochthonous bovine genotypes: assessment of the meat quality of the Italian Podolian and the Greek Katerini cattle  
Karatosidi, D., Marsico, G., Ligda, C. and Tarricone, S.
- Towards (self) sustainability of local cattle breeds in Europe  
Hiemstra, S.J.
- Suitability of traditional breeds for organic and low input pig production systems  
Leenhouders, J.I. and Merks, J.W.M.

Thank you
