

Workshop for European NC's on
strategies, relevant for the
management and sustainable
use/breeding of AnGR

Report after 5 years

S.J. Hiemstra
Stavanger, 2011

What was the main purpose of this project?

- To organise training, workshops, scientific sessions
- To transfer state of the art knowledge and exchange experiences between NC's
- To make it possible to invite lecturers or speakers to those events

What happened during the past 5 years ?

- ERFP Assembly 2008 - Antalya – Training workshop for National Coordinators on Conservation strategies for AnGR
- EAAP 2009 – Joint session ERFP, EAAP-WG-AnGR, EURECA project – Genetic management of populations of farm animals
- EAAP 2010 – Joint session of FAO, ERFP, EAAP-WG-AnGR – Adding value to local breeds
- EAAP 2011 - Joint session of FAO, ERFP, EAAP-WG-AnGR
Environmental value of animal genetic resources
Invited speaker, submitted papers, NC+FAO contributions
- Proposal for EAAP 2012 - Joint FAO, ERFP, EAAP-WG-AnGR
Gene banking: genetic and prioritization issues.
Topic suggested by ERFP-WG-Ex Situ Conservation
