

## Task 4: Recommendations of national advisory bodies

Sebastian Winkel

ERFP WG In situ conservation and valorization of AnGR

bmel.de

### Content

1. Objective and work plan
2. Documents to be distributed
3. Further proceeding

## Objective and work plan

### Objective:

Distribution of relevant recommendations, position papers and statements of the national advisory bodies

### Description of work:

#### Year 1:

- ✓ Collation of relevant publication within the WG
- Translation of the publications into English by the respective WG member
- Distribution of the translated publications by the ERFP Website

#### Following years:

- Updating and addition of relevant publications

## Documents to be distributed

| Country | Title or issue of the document  | Author   | Language                              |
|---------|---|--|---------------------------------------|
| ES      | Development plan of the National Program for the conservation, improvement and promotion of livestock breeds      | Zootechnical team of the General Subdirection of Means of Production of the Ministry of Agriculture, fisheries and food of Spain | Spanish, English                      |
| ES      | Criteria for considering a breed at risk of endangerment in the official catalogue of livestock                   | Zootechnical team of the General Subdirection of Means of Production of the Ministry of Agriculture, fisheries and food of Spain | Spanish, English                      |
| ES      | Procedure to officially recognise breeding associations and to include breeds in the National Catalogue of breeds | Zootechnical team of the General Subdirection of Means of Production of the Ministry of Agriculture, fisheries and food of Spain | Spanish, English                      |
| RS      | Agrobiodiversity in Southeast Europe - Assessment and Policy Recommendations                                      | RIVERA, F., GAUGITSCH, H., BARTEL, A., SCHINDLER, S.   | English                               |
| DE      | Protection of rare breeds against animal diseases   | National Advisory board on Animal Genetic Resources  | German, to be translated into English |
| DE      | Valorization of rare GRFA   | Scientific Committee for biodiversity and genetic resources  | German, to be translated into English |
| DE      | Conservation breeding programmes  | National Advisory board on Animal Genetic Resources  | German, to be translated into English |

## Further proceeding

By August 2019: Translation of the German documents

By August 2019: Publication of the documents from Spain, Serbia and Germany on the ERFP Website (depending of the relaunch of the new ERFP Website)

**Proposals for further documents are welcome at any time.**

Thank you for your attention!
