

Madrid, Spain, May 21st – 24th 2019

Some thoughts from the research point of view

Are we really so different?

Is this so bad?

GOBIERNO
DE ESPAÑA

MINISTERIO
DE CIENCIA, INNOVACIÓN
Y UNIVERSIDADES

Instituto Nacional de Investigación
y Tecnología Agraria y Alimentaria

RESEARCH

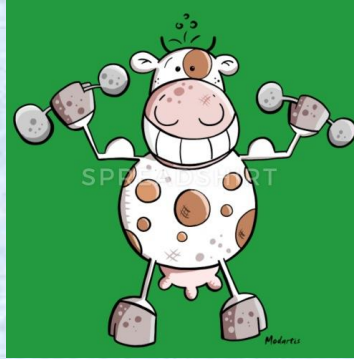

➤ Theory and real life ‘collide’

- direct translation of methodologies to sector
 - ✓ lack of knowledge of particularities
 - ✓ restrictions (e.g physiology, economics, ...)

BREEDERS

➤ Great expectations

➤ Great frustration

Different languages

customer

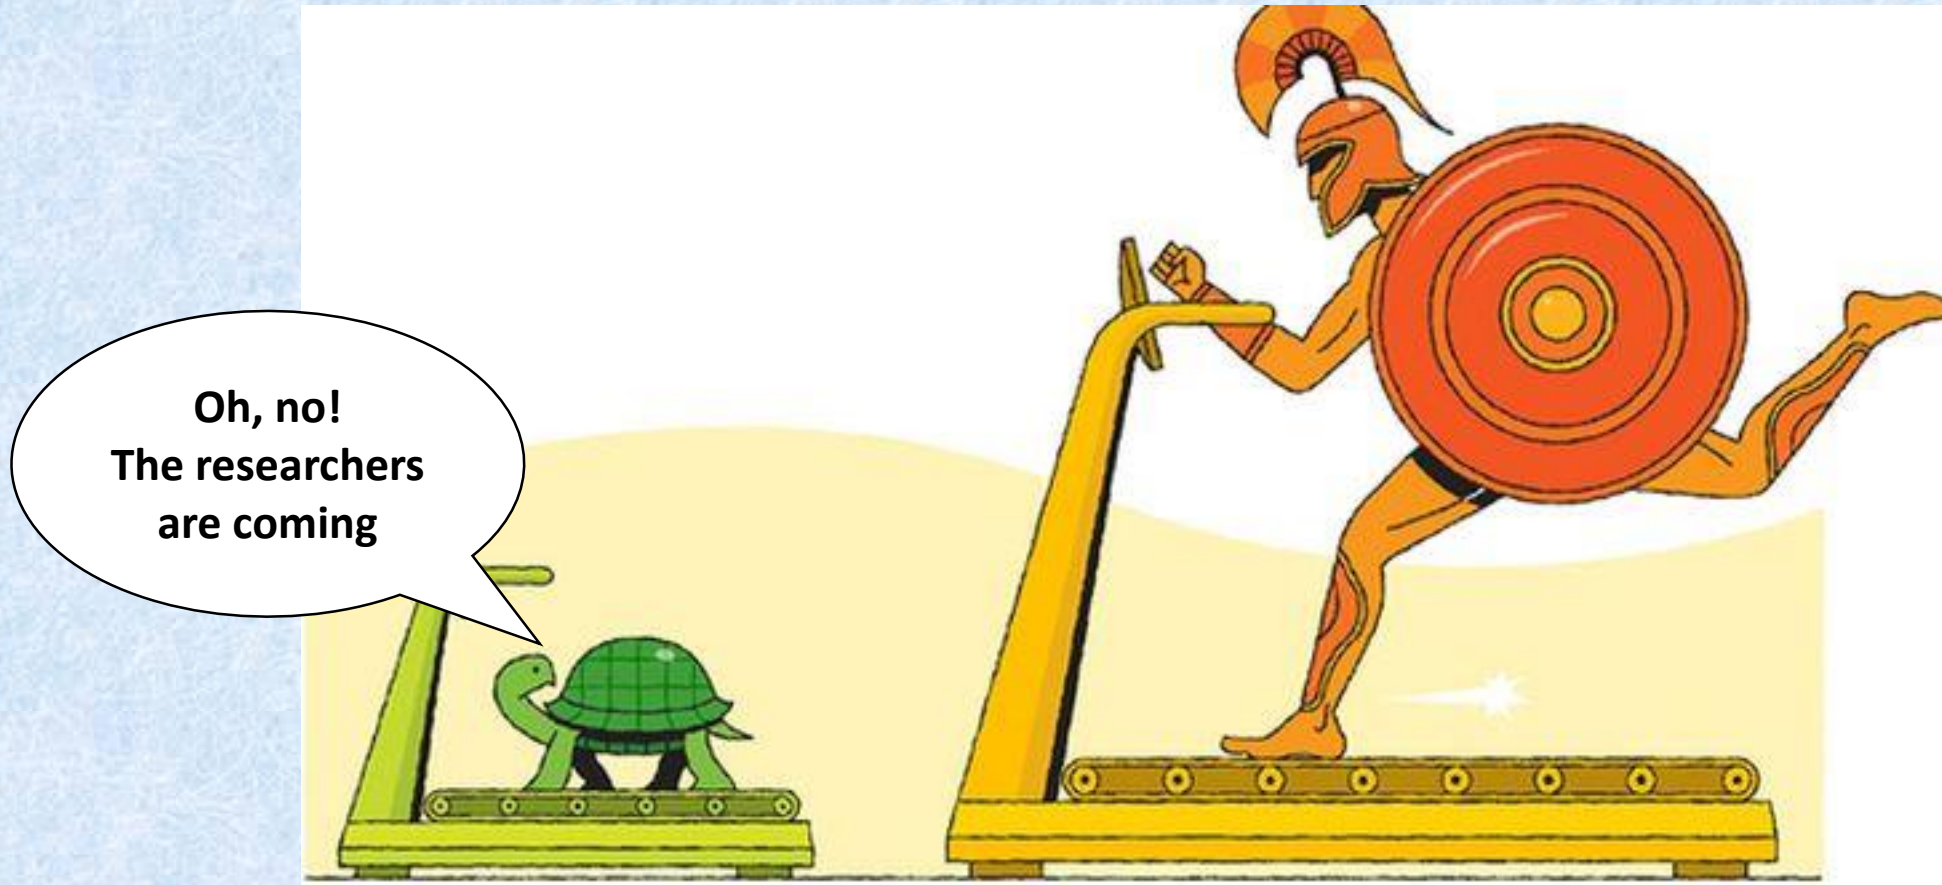

≠

seller

Different speed

✓ lag from development of concepts

Different speed

✓ real implementation

Follow me
if you can!

➤ Administrative burden

Different 'benefits'

SECTOR

- sustainability of the breed
- sustainability of the breeder

RESEARCH

- non direct (personal) profit
 - ✓ at least for governmental centres
- fame and glory
- professional recognition

GOOD NEWS!

➤ **Awareness of the importance of AnGR**

➤ **Without coordination**

- **Who should make ends meet?**
- **Government as the coordinator?**
 - ✓ **acting as an interface/translator**
- **Who should have the initiative?**
 - ✓ **SECTOR \Rightarrow RESEARCH**
 - ✓ **RESEARCH \Rightarrow SECTOR**
- **Public funding ‘boost’ or ‘stop’?**
- **How do we ‘avoid’ long protocols?**
