

Leader of the *Ad Hoc* action: Eléonore Charvolin

Report of the ERFP *Ad Hoc* action

1. Objectives (Summary)

Promote concerted actions between countries : all three WGs have decided to develop ERFP guidelines for transboundary breed in an *Ad Hoc* Action.

2. Membership

- Coordination Eléonore Charvolin and Enrico Sturaro
- 1 members per WG :
- 3 experts from breeding societies (which are familiar with the issue of transboundary breeds)
- coordinators of the WG
- First task > Coordination between the 3 WG
- Meaning that the 3 WG will give their input, through their representative. But a part of the work, the development of ideas should come from 2 sides: *Ad Hoc* Action and the 3 WG.
- made the following list.

	WG/Experts	expertise
Srdjan Stojanovic	in situ	rep wg
Claus-Peter Tordsen	in situ	expert
Ewa Sosin	ex situ	
Florent PIEDANNA	in situ	Expert breed society - France
Eva Ugarte	ex situ	Director of Innovation and Technology in NEIKER, the agricultural research institute of the Basque Country and in charge of the breeds of that region
(fernando tejerina)	ex situ	

eleonore charvolin	WG Doc	
Enrico Sturaro	WG Doc	
Christina Ligda	Doc and info	
Luigi A. Brambilla	RARE Breeds	
Grazyna Polak	Doc and info	

Proposals from breeding societies or management of breeds have to be confirmed during September 2020.

3. Activities in the past year and output/results

- Beginning in April 2020 after acceptance from ERFP SC.
- Defining the scope : All European endangered breeds
- Presenting the Ad Hoc Action to the 3 WG during their meeting from May to August 2020.
- Asking for members and for case studies until September 2020. Opening the participation through video conferences to more people if needed/will
- Planning the web meetings (to do !)

4. Plans and priorities for the rest of the year

Main milestones :

- describe a variety of cases to highlight the different cases of management of AnGR that would require at
 - least a sharing of knowledge between different countries,
 - but also highlighting actions that could be undertaken by a set of countries
 - a classification that will highlight the specific needs of each transboundary population. The field of application may be all European endangered breeds
 - The overall goal is propose the pathways to develop a common management of the endangered transboundary breeds by developing respective ERFP guidelines.
- **June 2020 – November 2020** List different cases and their problems to show the different situations and send the results to the coordinator of the Ad hoc action (each WG)

- **November or December 2020** Team meeting to share the findings, develop a table of content for the ERFP guidelines and identification of persons, who are responsible for drafting the content of the respective guideline items (team)
- **January 2021 – March 2021** Prepare and present table of content to the ERFP Steering Committee (coordinator assisted by the team)
- **April 2021 – July 2021** Draft guidelines (team, with involvement of the WGs)
- **August 2021** Presentation of draft ERFP guidelines for transboundary breeds to the ERFP Assembly (coordinator) and adoption of the guidelines (ERFP Assembly)

5. Other

Proposition of a webmeeting every 4 or 6 weeks from september until the end of the AH action.
