WG In situ conservation, online workshop 31. 05. 2021.

Unfinished work:

1. A template for »reports« of ERFP? We will ask Coralie or Alcandora?
2. Layout of brochure - Maybe Alcandora can do it as they did for the EUGENA flyer?
3. In chapter 5. Legal arrangements, subchapter 5.1 National legal arrangements, there are only links but for the reader, it would help to have one or two lines before the link explaining what type of regulation it is.

Would that be possible to finish now?

WG In situ conservation, online workshop 31. 05. 2021.

Unfinished work:

If this is not completed the data from this subchapter for the next participating countries will be deleted;
