

Ad hoc Action Improving interoperability of the databases used in AnGR management (2022-2023)

ERFP General Assembly
03-04 September 2022, Porto, Portugal

1

Background

- Various data at national, regional, global level
 - Different level of aggregation
 - Different level of detail
- Several major information systems
 - DAD-IS/EFABIS
 - EUGENA
 - IMAGE DP
 -

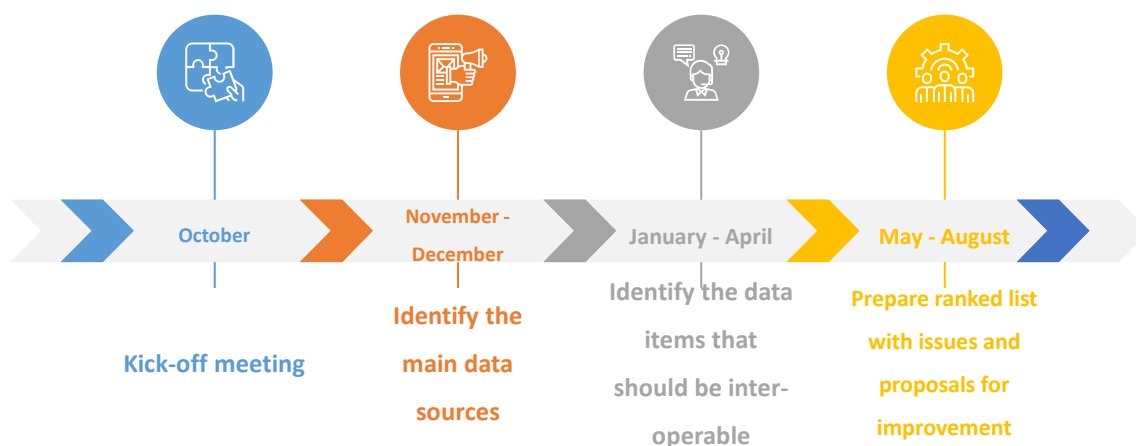

2

Objectives

- Identify the most relevant database (Which database?)
- Identify the inter-operability issues (What to improve?)
- Propose measures to improve the inter-operability (How to improve?)

3

Schedule

4
