

European Regional Focal Point for Animal Genetic Resources

DRAFT OF THE WORK PLAN FOR 2022-2023

1. Development of **EUGENA**.
2. Development of a modern genebank documentation software.
3. Supporting the development of national regulation on germinal products intended to be kept in genebanks and the recognition of genebanks at national level (AHA-ERC?).
4. Collaboration in the development of the Action Plan for the European strategy for Animal Genetic Resources and ERFP MYPOW.
5. Sharing knowledge and expertise in relation with cryopreservation protocols by species.
6. Support the utilization of Quality Management Systems in Genebanks (AHA).
7. End AHA strengthening national capacities towards the development of a national genebank strategy.
8. Supporting the application of the new regulation of germinal products in relation with the procedure for germinal products moved to genebanks in another Member State (AHA-ERC?).
9. Collaboration with the Ad Hoc Action: Transboundary breeds in Europe. Promote concerted action between countries.
10. Spread information about ex situ conservation and EUGENA in collaboration with the Communication Strategy of the ERFP.
