

Developing MYPoW

ERFP
European Regional Focal Point
for Animal Genetic Resources

**ERFP MULTI-YEAR
PROGRAM OF ACTION
2024-2028**

M. Castellanos
ERFP Chair
2023 joint WG
TOLEDO-SPAIN

1

European Regional Focal Point for Animal Genetic Resources

www.animalgeneticresources.net

Context

- MYPoW every 4 years (after change / election of Secretariat)
- New background / previous MYPoW (2019-2023)
 - ✓ Similar but renewed structure, fields and actions
 - ✓ Orientations from the 3 WG+TF (permanent Secretariat+GGRR Strategies)
 - ✓ Outcome from genresbridge-AnGR Animal Genetic Resources Strategy for Europe with KR and Action Plan
 - ✓ Setting up of the EURC EAB

2

European Regional Focal Point for Animal Genetic Resources www.animalgeneticresources.net

Main outlines

- **Improving the effectiveness of the ERFP**
- **Networking and communication**
- **Support for international processes in the field of AnGR**
- **Improvement of documentation of AnGR in Europe, tools, and guidelines**
- **Sustainable use and genetic improvement**
- **AnGR Conservation (In Situ and Ex Situ)**
- **Education and awareness raising**

Context and comments

- A common point between the global and AnGR strategy and the MYPOW:
The level of fulfilment will depend on the level of adoption, commitment and support from the Governments, European Institutions involved actors that should provide the financial, human and institutional resources and work required to fully execute the action plan
- Moreover: There are some other uncertainties about future activities in the long term, some of them need a ERFP orientation and GA decision
- In the specific sections of the MYPOW some KR and actions have been partially included if directly are connected to ERFP competences and are on ERFP`s hand to be implemented at some point in the next years

ERFP Secretariat

4

European Regional Focal Point for Animal Genetic Resources www.animalgeneticresources.net

Context and comments

- Education and awareness raising + communication tools: It needs further ERFP work, review and make decisions .
 - More support from NC/WG
 - AHA to be implemented?
 - Continuation Journal/Gateway genresbride?
- More efforts in collaboration/connection to other entities (FAO work/ERC/ICAR/EAAP/EFFAB...)
- Review policies and strategies : Should we mention and develop more? (CAP, F2F...)
- Main Strategy Action Plan actions included in MYPOW-Review for:
 - Data/Documentation/DADIS/Indicators
 - Sustainable use and genetic improvement
 - Conservation in situ and ex situ
 - Education and awareness
- Role of ERC and connection to ERFP: Working together and looking for the adequate connection and channel

Next milestones

- Comments gathered during the WG included by the Chairs:
- Finish Action plan and in parallel, look if the KR that depend on ERFP and are relevant have been included in MYPoW: Timetable, procedures, information at WG level
- More comments from WG experts and NCs to Secretariat => June 15th
- ERFP Steering Committee June 22nd
- Finalization and validation by the General Assembly
