DE AGRICULTURA, PESCA
Y ALIMENTACIÓNAGENDA
2030

1

European Regional Focal Point for Animal Genetic Resources

Summary of TF Initial Objectives

- Establish common requirements for the database software.
- Select a database software for genebanks.
- Support each other in the implementation of the database software.

Permanent TF

- Analyze the operation of the solutions implemented

2

European Regional Focal Point for Animal Genetic Resources

TF Members.

- Zhivko Duchevev – ERFP (TF Co-chair).
- S.J. Hiemstra – The Netherlands (TF Co - chair)
- Ina Hulsege – The Netherlands
- Delphine Duclos - France
- D. Bojkovski – Slovenia
- Tina Flisar – Slovenia
- Daniela Wasem – Switzerland
- Melissa Raemy – Switzerland
- Sonsoles Zabala – Spain
- Fernando Tejerina – Spain (TF Co-Chair)

OPEN TO
ALL ERFP
COUNTRIES

3

European Regional Focal Point for Animal Genetic Resources

TF 2023-2024 Activities.

VIDEOCONFERENCE 4TH MARCH:

1. TF members + 8 “EXTERNAL” attendances.
2. Share experience on the implementation of new software in genebanks.
 - Implementation of Biolomics data base in CGN Wageningen. Inna Hulssege/Annemieke Rattink.
 - 
 - Implementation of at home designed data base in the NGB of Spain. Sonsoles Zabala.
3. Future activities:
 - Follow up the implementation of database software in genebanks and support countries in the implementation of new databases.
 - Analise and propose the development of a common format for data exchange within different databases in collaboration with the AHA Improving interoperability of the databases used in AnGR management

DATA EXCHANGE FORMAT

Common format is a priority for the WG members?

4

European Regional Focal Point for Animal Genetic Resources

TF 2023-2024 Activities.

VIDEOCONFERENCE 4TH MARCH:

3. Future activities:

• Storage and management of genomic information in genebanks:

○ QUESTIONNAIRE (10 ANSWERS):

Is your institution storing genomic information?

10 respuestas

60%

40%

● Yes

● No

Do you think it is interesting that the ERFP works on analyzing and improving the management of genomic information in genebanks?

10 respuestas

10%

● Yes

● No

5

European Regional Focal Point for Animal Genetic Resources

TF 2023-2024 Activities.

VIDEOCONFERENCE 4TH MARCH:

3. Future activities:

• Storage and management of genomic information in genebanks:

○ Example from Slovenia.

○ Proposal to work on genomic data by The Netherlands.

Is interesting work on the management of genomic data in gene banks?
